

Final Deliverable, CSC 305, Fall 2004

Due, Wednesday December 22nd, 2004, at 2pm.

NOTE: at least one member of the team has to give a system demonstration. The project will not be accepted without the system demonstration. Please schedule in advance. The demonstration should not take longer than 15 minutes.

You are asked to deliver the following in a bound binder:

1. A user's manual and software manuals (a software manual describes how to install and maintain the software).
2. A document that explains what was done on the project, the major problems that were encountered, and what you would do differently next time.
3. A document that explains all the features that did **not** get coded, why, and what would have to be done to complete the project.
4. A document with the results from your test cases.
5. Include all documents from the previous assignments. Be sure to revise all documents to coincide with the actual implementation.
6. A copy of the source code as an appendix.

GRADING:

_____ 20% Revised documents, updated and consistent with changes documented

_____ 20% Source code

_____ 20% Testing results

_____ 20% User's and software manuals

_____ 10% System demonstration.

_____ 10% Writing and appearance of document
